

COLLAGEN INDUCTION THERAPY

# Your Skin's Reset Button Exists.

Microneedling triggers your body's own repair system – boosting collagen, refining texture, and unlocking radiant skin. Minimally invasive. Maximally effective.

## What Happens During Microneedling?

A medical-grade device creates micro-channels – triggering your skin's natural regeneration cycle.

 <p><b>MICRO-CHANNELS</b> Fine sterile needles create controlled micro-injuries</p>	 <p><b>REPAIR TRIGGERED</b> Natural healing cascade begins immediately</p>	 <p><b>COLLAGEN BUILT</b> Elastin and collagen production accelerates</p>	 <p><b>SERUMS ABSORBED</b> Active ingredients penetrate deeper than ever</p>

HOW IT WORKS

4 Steps. One Transformative Treatment.

<b>01</b> CONSULT	<b>02</b> PREP	<b>03</b> TREAT	<b>04</b> RECOVER
----------------------	-------------------	--------------------	----------------------

## Your Treatment Journey

- 1 Consultation & Skin Assessment**  
Review of your concerns, goals, and treatment suitability.
- 2 Preparation**  
Skin cleansing and topical numbing applied for comfort.
- 3 Microneedling Procedure**  
Controlled treatment using a precision medical-grade device.
- 4 Post-Treatment Care**  
Calming and regenerative products applied. Mild redness for 24-72 hrs is normal.

## Downtime at a Glance

WHAT IT TREATS

## One Treatment. Three Zones.

	<p><b>FACE</b> Fine lines · Acne scars · Enlarged pores · Pigmentation · Dull skin</p>	→
	<p><b>BODY</b> Stretch marks · Surgical scars · Skin texture irregularities</p>	→
	<p><b>SCALP</b> Hair follicle stimulation · Serum absorption · Dormant growth activation</p>	→

AMPLIFY YOUR RESULTS

## Combination Protocols

- Microneedling + PRP/PRF – Advanced regeneration for accelerated healing
- Microneedling + Skin Boosters – Deep hydration and radiant glow
- Microneedling + Hair Serums – Scalp rejuvenation and follicle activation

All combination protocols are tailored during your personal consultation.

SUPERCHARGED RESULTS

## Pair It. Amplify It.

Microneedling opens micro-channels that dramatically enhance serum delivery – hyaluronic acid, peptides, vitamins, and growth factors penetrate deeper for faster results. We also combine with PRP/PRF and skin boosters for advanced regeneration.

 · PRP / PRF	 · SKIN BOOSTERS	 · HAIR SERUMS

## Frequently Asked Questions

- Is microneedling painful?**  
Discomfort is minimal and well tolerated. Topical numbing is applied when needed.
- Is it safe for all skin types?**  
Yes – when performed by trained medical professionals using appropriate device settings.
- Can it be done beyond the face?**  
Absolutely. Scalp, neck, chest, abdomen, and other body areas are all suitable treatment zones.

△ Results vary between individuals. A professional assessment is required before treatment. Microneedling is not suitable for active skin infections or certain skin conditions, and does not replace medical or dermatological care where indicated.

## Ready to Unlock Your Skin's Potential?

A personalised consultation is the first step. Our medical team will assess your skin, answer every question, and design a treatment plan built around you.
