

◆ CLINICAL CARE, REIMAGINED ◆

Small Procedure. Big Difference.

LUMIYA HEALTH
DR ANKE VAN ZYL INC

No hospital. No theatre. No referral delays. Lumiya Health brings safe, doctor-performed minor procedures right to the consultation room – quick, effective, and designed around *you*.

What Are Minor Medical Procedures?

Minor medical procedures are in-room treatments performed safely by a doctor – no hospital admission, no theatre required. They are **quick, effective, and part of comprehensive primary healthcare**. At Lumiya Health, every procedure is carried out with careful attention to safety, comfort, and aftercare.

⚡ Important to Know Before You Book

- 1 Minor procedures are **billed separately** from your consultation fee.
- 2 Pricing varies by **procedure type, complexity** (e.g. number of sutures), and **location**.
- 3 A **personalised assessment** is required before any procedure is performed.
- 4 Aftercare instructions and follow-up appointments are discussed during your consultation for **optimal healing**.

For a full price list or to confirm availability, contact the practice directly.
