

Clarity. Precision. Care you can trust.

At Lumiya Health, we believe that understanding your health starts with clear, accurate diagnostics – delivered with compassion and without the confusion.

From the moment you walk through our door, our team is dedicated to making every test, every result, and every next step as simple and stress-free as possible. *Your health journey, guided by us.*

Everything under one roof – almost literally.

At Lumiya Health, we offer convenient **in-room blood drawing, point-of-care testing**, and access to trusted external laboratory and radiology services. This means faster decisions, streamlined care, and fewer delays – because your time and health both matter.

⚡ Same-Day Results, Right Here

We perform in-room phlebotomy and rapid point-of-care tests *during your consultation*. No second trip. No waiting days. Many answers arrive before you leave.

🩸 Haemoglobin (Hb)

🩸 Blood Glucose (HGT)

🧡 Cholesterol

🩸 Uric Acid

🧑‍⚕️ Rapid HIV Testing

🟢 Urine Dipstick

👶 Pregnancy Testing

🩸 Nitric Oxide

🧬 Hormonal & Metabolic Screening (where appropriate)

Please note: Tests are ordered only when clinically indicated. Results support – but do not replace – a full medical consultation. All management decisions are based on your complete clinical picture.

🔬 Deeper Testing, Trusted Partners

When your care calls for more comprehensive investigations, we send samples to our accredited pathology partners – the same day, where possible. Most results return within **1-2 working days**. Your doctor reviews everything and contacts you directly, arranging follow-up where needed.

AMPATH
PATHOLOGY SERVICES

LANCET
LABORATORIES

PATHCARE
PATHOLOGY SERVICES

UNIVERSAL
PATHOLOGY LABS

Additional services include: Pap smears, STI screening, sperm analysis, paternity testing, allergy testing & specialised blood panels.

Radiology Referrals (X-Rays & Ultrasound)

Where imaging is required, we provide formal referral letters for diagnostic imaging, including but not limited to:

🔍 X-rays

🔍 Ultrasound scans

📺 CT scans

📺 MRI scans

We work in collaboration with **Morton & Partners Radiologists**, ensuring access to high-quality imaging and accurate reporting.

Your doctor will guide you on:

- ✓ Which imaging study is required
- ✓ Where to attend for the scan
- ✓ How and when results will be reviewed

💰 Costs & Medical Aid

Lab tests are billed separately from your consultation. Medical aid claims are submitted where applicable. Cash patients receive upfront pricing – always transparent, always fair.

📅 Preparing for Your Test

Your doctor will advise if fasting is needed, specific timing requirements, or follow-up testing. Clear instructions are always provided – no guesswork.

Ready to get the answers your body deserves?

Book a consultation today – or reach out to enquire about any of our diagnostic services. We're here, and we're ready for you.
